

## TASK 18 - BEAD STACK 1-5

The student stacks beads onto dowels of increasing length. **Bead Stack** teaches quantities '1-5' by associating numbers on lid with quantity of beads on each dowel.

### 1:1 Receptive Language Lesson:

With all the beads stacked in place, ask the student for *"two beads," "four beads,"* etc.

### Note:

Dowels are designed to fit tightly when installed. As they become loose through use, place a small amount of poster putty on the bottom of each dowel and press firmly in place.

### CONTENTS:

- (1) Shoebox base
- (1) Shoebox lid
- (15) beads
- (1) 20 oz. container
- (5) dowels of varying lengths
- (1) piece of putty
